

Powerful Configurable AV Control and Capture with Video Content Management

Extron is working with Panopto to deliver the industry's first unified solution for AV control, media capture, and video content management and delivery. Extron's control systems and SMP Series media capture solutions will integrate natively into the Panopto ecosystem providing seamless capture and complete control for classrooms, meeting spaces, and workspaces.

How Organizations Use Extron and Panopto

Secure Video Library

Training and Onboarding

Live Streaming

Meeting Recording
